## **Space Exploration**

This workbook can help you but you still need to read the merit badge pamphlet.

You still must satisfy your counselor that you can demonstrate each skill and have learned the information.

You should use the work space provided for each requirement to keep track of which requirements have been completed, and to make notes for discussing the item with your counselor, not for providing full and complete answers.

If a requirement says that you must take an action using words such as "discuss", "show",

"tell", "explain", "demonstrate", "identify", etc, that is what you must do.

## Merit Badge Counselors may not require the use of this or any similar workbooks.

No one may add or subtract from the official requirements found in Scouts BSA Requirements (Pub. 33216 – SKU 653801).

The requirements were last issued or revised in 2020

• This workbook was updated in June 2020.

**3.** Build, launch, and recover a model rocket.

**Space Exploration** 

Make a second launch to accomplish a specific objective\*. (Rocket must be built to meet the safety code of the National Association of Rocketry. See the "Model Rocketry" chapter of the *Space Exploration* merit badge pamphlet.)

\* If local laws prohibit launching model rockets, do the following activity: Make a model of a NASA rocket. Explain the functions of the parts. Give the history of the rocket.

Recovery system

ace i	Explo	rauon		Scout s Name:
	i.	Rocket engine		
4.	Disc	cuss and demonstrate	each of the	following:
	a.	The law of action-read	ction	
			-	
			-	
			-	
			-	
	b.	How rocket engines v	vork	
			-	
			-	
			-	
	•	How catallitae stay in	orbit	
	C.	How satellites stay in	OIDIL	
			-
